RAZPISI, NOVICE, DOGODKI, PUBLIKACIJE

4/2/2026

KAZALO VSEBINE

RAZPISI, NOVICE, DOGODKI, PUBLIKACIJE 1

1 OBJAVLJENI RAZPISI 1

Horizon razpisi 1

1.1 HORIZON-JU-CHIPS-2026-1-RIA - RIA Global call according to SRIA 2026 1

1.2 HORIZON-JU-CHIPS-2026-1-IA - IA Global call according to SRIA 2026 2

Ostali razpisi 3

1.3 EuroHPC JU Call for Proposals for Benchmark Access 3

1.4 PPPA-2026-LAUNCHERS-GAMECHANGING — Innovation for European Launch Solutions 3

1.5 European People's Party Postgraduate Research Grant(s) Programme 4

Tender razpisi 5

1.6 TENDER - Adoption of metagenomics approaches for risk assessment of complex microbial mixtures 5

2 NOVICE 6

2.1 Objavljeni so razpisi grozda 5 programa Obzorje Evropa 6

2.2 Odprt je razpis programa Erasmus+ za virtualne izmenjave v visokem šolstvu in med mladimi 6

2.3 Cilj projekta Code4Europe je povečati število mladih, ki se odločijo za programiranje 6

2.4 V okviru projekta EU-OPENSCREEN-DRIVE je bil vzpostavljen urad za povezovanje z industrijo 6

2.5 EU in Indija sta zaključili pogajanja o sporazumu o prosti trgovini (FTA) 7

2.6 Evropska komisija zbira mnenja, kako povečati udeležbo žensk v raziskavah in inovacijah 7

2.7 Mnenje revizorjev o pravilih glede porabe in novih virih proračuna EU 2028-2034 7

3 DOGODKI 8

3.1 The power of transdisciplinarity for innovation-led impact 8

3.2 Artificial intelligence in Horizon Europe calls: an interdisciplinary challenge .. 8

3.3 BATTLEFIELD ReDEFiNED 2026: Modern Technologies with dual-use potential for Enhancing Security, Defence and Space Resilience 8

3.4 EDF Info Days 2026 8

3.5 EU Tax Symposium 2026 8

3.6 Science Communication Beyond Tomorrow IV 8

3.7 Horizon Europe Research Infrastructures info day 8
4 PUBLIKACIJE 9

PIVOT RP

Univerza v Ljubljani ima sklenjeno naročnino za PIVOT RP, ki velja za največjo informacijsko bazo odprtih razpisov na svetu in predstavlja nadgradnjo platforme Research Professional. Dnevno je objavljenih več sto razpisov s področij raziskovanja, razvoja, izobraževanja, raziskovalne infrastrukture, nagrad in drugih priložnosti, povezanih z raziskovanjem. Platforma omogoča tudi povezovanje z drugimi raziskovalci in iskanje projektnih partnerjev. Ker pri iskanju uporablja umetno inteligenco, je razvrščanje in priporočanje razpisov še bolj natančno in učinkovito.

Vsi zaposleni in študenti Univerze v Ljubljani se lahko **brezplačno registrirate**. Registracijo lahko opravite z digitalno identiteto ali pa si ustvarite uporabniško ime in geslo. Pri tem mora biti uporabniško ime elektronski naslov z domeno UL; v nasprotnem primeru brezplačna registracija ni mogoča.

Pomembno: Če ste v preteklosti že uporabljali Research Professional, morate na PIVOT RP **izvesti novo registracijo** in ustvariti **nov profil**.

Za vsa vprašanja smo dosegljivi na projekt@uni-lj.si.

PLATFORMA CROWDHELIX

Platforma CROWDHELIX je namenjena povezovanju akademskih institucij in podjetji pri oblikovanju kompetitivnih konzorcijev za pripravo projektov na razpise programa Obzorje Evropa. Na platformi, ki je razdeljena na različna tematska področja (helixes), lahko objavite svoje interese po sodelovanju ali pa poiščete že obstoječe iniciative oziroma konzorcije, ki iščejo partnerje z določeno ekspertizo. Trenutno je na platformi objavljenih 2503 priložnosti z več kot 14.100 uporabniki iz 740 aktivnih organizacij.

Univerza v Ljubljani plačuje letno članarino, zato se lahko raziskovalci in raziskovalke UL registrirajo brezplačno.

Kratek pregled platforme in njenih funkcionalnosti:
- Iskanje partnerskih ponudb po tematskih področjih
- Povezovanje akademskih institucij s podjetji
- Iskanje drugih priložnosti za sodelovanje
- Objava in iskanje tematskih dogodkov
- Izmenjava mnenj in priložnosti

1 OBJAVLJENI RAZPISI

Horizon razpisi

1.1 HORIZON-JU-CHIPS-2026-1-RIA - RIA Global call according to SRIA 2026	
	Spletna stran razpisa
Rok prijave:	7. 5. 2026
Opis:	Chips JU Research and Innovation Action (RIA) primarily consists of activities aiming to establish new knowledge and/or to explore the feasibility of a new or improved technology, product, process, service, method, tool or solution. For this purpose, they may include applied research, technology development and/or method/tool and integration, testing and validation on a small-scale prototype in a laboratory or simulated environment. The activities have their centre of gravity at TRL 3-4.A RIA proposal is characterised by: •Execution by a consortium that may consist of SMEs, large enterprises, universities, institutes, public organizations;•Developing innovative technologies and/or using them in innovative ways; •Targeting demonstration of the innovative approach in a relevant product, service or capability, clearly addressing the applications relevant for societal challenges; •Demonstrating value and potential in a realistic lab environment reproducing the targeted application; •Having a deployment plan showing the valorisation for the Chips JU ecosystem and the contribution to the Chips JU goals and objectives. In order to maximize effective implementation of the Chips JU top-level objectives, the list of RIA proposals to be retained for public funding shall constitute a balanced portfolio of projects developing innovative technologies (as defined in the SRIA in the functional technology layers and cross-sectional technologies sections) and applying them in different domains (as defined in the SRIA in key application areas section). The domains represent the demand side of technologies, and the development of new technologies represents the supply side of technologies.
Proračun:	MIN: 1.000.000 EUR; MAX: 12.000.000 EUR

1.2 HORIZON-JU-CHIPS-2026-1-IA - IA Global call according to SRIA 2026	
	Spletna stran razpisa
Rok prijave:	7. 5. 2026
Opis:	The activities should have their centre of gravity at the TRL 5-8. An IA proposal in Chips JU is characterized by one or more of the following:-Execution by an industrial consortium that may consist of large enterprises and SMEs but also including universities, institutes, public organizations.-Using innovative technology-Establishment of a new and realistic innovation environment connected with an industrial environment, such as: •a pilot line facility capable of manufacturing •a zone of full-scale testing •a development of new processes or tools and their introduction in several domains •the development of frameworks or platforms together with the usage of these frameworks or platforms in innovative products.-Having a deployment plan leading to short to midterm economic value creation in Europe. To maximize effective implementation of the Chips JU top-level objectives, the list of IA proposals to be retained for public funding should constitute a balanced portfolio of projects developing innovative technologies (as defined in the SRIA in the functional technology layers13and cross-sectional technologies sections) and applying them in different domains (as defined in the SRIA in ECS key application areas section). The domains represent the demand side of technologies, and the development of new technologies represents the supply side of technologies.The size of the proposal is not an evaluation criterion. Chips JU is looking at a balanced portfolio of small and large projects.
Proračun:	MIN: 1.000.000 EUR; MAX: 15.000.000 EUR

Ostali razpisi

1.3 EuroHPC JU Call for Proposals for Benchmark Access	
	Spletna stran razpisa
Rok prijave:	1. 3. 2026
Opis:	The purpose of the EuroHPC JU Benchmark Access calls is to support researchers and HPC application developers by giving them the opportunity to test or benchmark their applications on the upcoming/available EuroHPC Pre-exascale and/or Petascale system prior to applying for an Extreme Scale and/or Regular Access. The EuroHPC Benchmark call is designed for code scalability tests or for test of AI applications and the outcome of which is to be included in the proposal in a future EuroHPC Extreme Scale and Regular Access call. Users receive a limited number of node hours; the maximum allocation period is three months. The supercomputer systems and their operations provided for the Development Access call by EuroHPC JU Hosting Entities are: • Vega • Karolina • MeluXina • Discoverer • Deucalion • LUMI • Leonardo • MN5 • Jupiter
Proračun:	--

1.4 PPPA-2026-LAUNCHERS-GAMECHANGING — Innovation for European Launch Solutions	
	Spletna stran razpisa

Rok prijave:	29. 4. 2026
Opis:	The aim is to spur interest, incite new collaborations, incentivize change, attract new dynamic innovators to the area, mobilise additional private investment for innovation, generate solutions and encourage an EU innovative access to space ecosystem, while developing or opening markets in new areas. Through the award of Grants, it is expected to deliver new solutions to the challenge of resilient and competitive EU access to space. Objective: The action intends to **support EU entities to develop game-changing innovations** that have the potential to **revolutionise the future of access to space** and **improve the competitiveness of the European space industry** by focusing on ambitious innovations which are not yet available and go beyond the state of the art for access to space in the EU. A game-changing innovation is typically defined as a radical breakthrough that transforms an industry or market. It introduces a new way of thinking or working that displaces existing practices and technologies. This type of innovation creates new markets, disrupts existing ones thereby unlocking new opportunities for growth, profitability, and competitiveness, giving innovators a significant advantage over their competitors.
Proračun:	--

1.5 European People's Party Postgraduate Research Grant(s) Programme	
	Spletna stran razpisa
Rok prijave:	15. 5. 2026
Opis:	These aim to stimulate research on the history, role and impact of Christian Democracy by enabling researchers to access the primary sources held at the Historical Archives of the EU in Florence, at the EPP group's archives in Brussels or at the Konrad Adenauer Stiftung in Bonn.

	The aim of the grant is to stimulate and support research in the field, leading to the publication of a scholarly article in an international peer-reviewed academic journal. This grant programme is designed to enable researchers to broaden their research by studying the primary sources held at the Historical Archives of the European Union in F lorence, at the EPP Group's archives in Brussels and/or at the Konrad Adenauer Stiftung (KAS) in Sankt Augustin - Bonn.
Proračun:	MIN/MAX: 5.000 EUR

Tender razpisi

Članice se na razpise "tenders" prijavljajo samostojno, saj se izvajajo po naročilu in so v celoti financirani na podlagi zbiranja ponudb oziroma javnih naročil.

1.6 TENDER - Adoption of metagenomics approaches for risk assessment of complex microbial mixtures	
	Spletna stran razpisa
Rok prijave:	--
Opis:	Develop regulatory science-compliant, fit-for-purpose metagenomics protocols and methodologies for the characterisation and safety evaluation of complex microbial mixtures in regulated products (e.g., competitive exclusion products used as feed additives). The project will establish standardised analytical frameworks for taxonomic characterisation, detection of safety-relevant genomic features (e.g. antimicrobial resistance genes, virulence factors), and risk assessment decision-support tools. This project aims to addresses short-term regulatory needs while establishing a foundation for broader metagenomics adoption in EFSA's risk assessments.
Proračun:	MAX: 1.250.000 EUR

2 NOVICE

2.1 Objavljeni so razpisi grozda 5 programa Obzorje Evropa

Evropska komisija je objavila razpise za projekte v okviru delovnega programa Obzorje Evropa 2026–2027 za grozd 5, ki združuje teme o podnebnih ukrepih, energiji in mobilnosti. Razpisi so: Podnebne znanosti in odzivi za prehod k podnebni nevtralnosti, Trajnostna, varna in konkurenčna oskrba z energijo in Čiste in konkurenčne rešitve za vse vrste prevoza. Evropska komisija je o razpisih 15. januarja organizirala spletni informativni dan s katerega je na voljo posnetek. Člani lahko dobijo več informacij tudi na SBRA.

2.2 Odprt je razpis programa Erasmus+ za virtualne izmenjave v visokem šolstvu in med mladimi

Odprt je razpis programa Erasmus+ za virtualne izmenjave v visokem šolstvu in med mladimi z nekaj novostmi in spremembami. Virtualne izmenjave so spletne dejavnosti med ljudmi, ki spodbujajo medkulturni dialog in razvoj mehkih veščin. Potekajo v majhnih skupinah in jih vedno vodi usposobljen moderator. Lahko se jih enostavno vključi v projekte za mlade (neformalno izobraževanje) ali visokošolske študijske programe. Rok za oddajo predlogov je 26. marec. Člani lahko dobijo več informacij na SBRA.

2.3 Cilj projekta Code4Europe je povečati število mladih, ki se odločijo za programiranje

Evropska komisija je v okviru programa Digitalna Evropa financirala več projektov, ki podpirajo izobraževanje, s posebnim poudarkom na digitalnih veščinah in sodelovanju mladih prek pobude Evropski teden programiranja (EU Code Week). Med njimi je projekt Code4Europe, ki vključuje več dejavnosti. Med njimi so hakatoni tedna programiranja (Code Week Hackathons), ki so namenjeni mladim. Ponujajo jim platformo za sodelovanje, učenje in predstavitev talentov na področju programiranja in reševanja problemov.

2.4 V okviru projekta EU-OPENSCREEN-DRIVE je bil vzpostavljen urad za povezovanje z industrijo

Evropski raziskovalni laboratoriji in farmacevtska podjetja si prizadevajo za odkritje novih zdravil, vendar imajo pogosto težave najti skupni jezik. Da bi to težavo odpravili, je bil ustanovljen konzorcij EU-OPENSCREEN, ki je vzpostavil raziskovalno infrastrukturo za kemijsko biologijo in zgodnje odkrivanje zdravil. V okviru projekta EU-OPENSCREEN-DRIVE, ki ga financira Evropska komisija, pa je bil vzpostavljen Urad za povezovanje z

industrijo (ILO) s ciljem vzpostaviti zaupanje in komunikacijo med raziskovalci in industrijo.

2.5 EU in Indija sta zaključili pogajanja o sporazumu o prosti trgovini (FTA)

EU in Indija sta zaključili pogajanja o sporazumu o prosti trgovini (FTA) v katerem je predvideno, da bo Indija postopoma znižala carine za uvoz avtomobilov s 110 odstotkov na 10 odstotkov, za avtomobilske dele pa bodo po petih do desetih letih popolnoma odpravljene. Carine, ki znašajo do 44 odstotkov za stroje, 22 odstotkov za kemikalije in 11 odstotkov za farmacevtske izdelke, bodo prav tako večinoma odpravljene.

Več: Spletna stran z informacijami o sporazumu

2.6 Evropska komisija zbira mnenja, kako povečati udeležbo žensk v raziskavah in inovacijah

Evropska komisija do 23. Februarja prek javnega posvetovanja zbira mnenja o tem, kako povečati udeležbo žensk v raziskavah in inovacijah. Zbrana mnenja in predloge bo upoštevala pri pripravi akcijskega načrta za ženske v raziskavah, inovacijah in zagonskih podjetjih.

Več: Posvetovanje

2.7 Mnenje revizorjev o pravilih glede porabe in novih virih proračuna EU 2028-2034

Evropsko računsko sodišče je objavilo dve mnenji o predlaganih novih pravilih o zasnovi in zgornjih mejah naslednjega sedemletnega proračuna EU za obdobje 2028-2034 ter o novem sistemu virov lastnih sredstev EU, iz katerih se bo za financiral proračun. Proračun prvič zajema prihodke iz naslova nezbranih e-odpadkov, iz naslova trošarin na tobak ter iz naslova prispevkov podjetij z letnim prometom več kot 100 milijonov evrov. Vključuje tudi predhodno predlagane prihodke na podlagi mehanizma za ogljično prilagoditev na mejah in sistema trgovanja z emisijami.

Več: Mnenje o uredbi o večletnem finančnem okviru in Mnenje o novih virih lastnih sredstev EU

3 DOGODKI

3.1 The power of transdisciplinarity for innovation-led impact

Prek spleta, februar 17. 2026,
Več informacij **TUKAJ**

3.2 Artificial intelligence in Horizon Europe calls: an interdisciplinary challenge

Prek spleta, februar 25. 2026,
